## SUMMARY

Odoo Developer with over 2 years of hands-on experience in designing, developing, and deploying Odoo applications. Proficient in custom module development, API integrations, and database management. Adept at translating business requirements into technical solutions, ensuring client satisfaction and project success

## EDUCATION

### Indira Gandhi National Open University (IGNOU)

Master of Computer Applications  
(pursuing)

### Don Bosco College,

Bachelor of Computer Applications  
June 2017 - April 2020

### Don Bosco Hr. Sec. School

June 2015 - March 2017

## SKILLS

### Programming language

- Python
- JS
- XML

### Frameworks

- Odoo
- OWL
- REST API
- Django

### Database

- PostgreSQL
- MySQL

### DevOps Tools

- Docker
- Git Hub
- Jira

## PROFESSIONAL EXPERIENCE

### Junior Associate

KGISL, Coimbatore | 2022 - Present

- Involved in ongoing development of CampusERP, optimizing Purchase, Warehouse, and Accounts modules, ensuring timely email triggers, and enhancing user experience with Qweb PDFs. Proficient in debugging, modifications, and bug resolution for smooth operations. Additionally, providing API for mobile app, enabling MGMT approval via mobile for improved accessibility and efficiency.
- Lead for CampusERP project, driving development, optimizing modules, and ensuring seamless operations
- Achieved successful conceptualization, design, and implementation of the ERP Helpdesk and Meeting Room Booking modules in Odoo, leading to enhanced operational efficiency and streamlined communication processes. Additionally, delivered bug-free modules for CampusERP, ensuring seamless integration and enhanced functionality.
- Contributed to ATS (Asset Tracking System) project with focus on new development for enhanced functionalities and improved asset management. Achieved a fleet master system to track the campus vehicles' movements and maintenance schedules.
- As a Release Engineer, actively managing the smooth deployment and seamless updates of high-quality software.

## OPEN SOURCE CONTRIBUTIONS

- **Bahmni** | I contributed to the open-source product Bahmni, an easy-to-use EMR & hospital system, by integrating Odoo 16 to efficiently manage drug stock.
- **Odoo App Store** | I developed a module to replicate the require field highlighter feature from previous Odoo versions, which is not available in Odoo 17 Community Edition, improving efficiency by visually indicating required fields while filling out form values, check the link below.
